## ACE EXPO Post-Sale Success

The 6th ACE event have been dubbed the trade fairs best ever. The more than 200 expo exhibitors at the Australian Construction Equipment Expo (ACE) however did not have jitters. And while there was one cancellation, bigger display areas and a line up of new products were showcased at the show. ACE officials say the expo was a success for buyers and suppliers, with many exhibitors reporting strong sales, ThyssenKrupp Steelcom included.

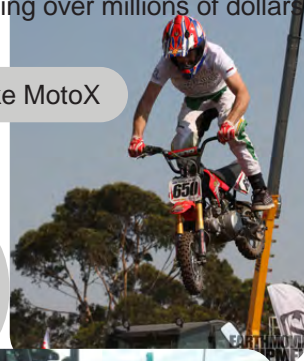

ThyssenKrupp Steelcom, exhibited for the first time at the ACE 2009 officially releasing the latest in hammers and ABI MobilRam attachments, including innovations on shoring and trench boxes.

The 2009 Expo held at Sandown Racecourse (Melbourne VIC) from 26th - 28th February 2009 was the biggest event of the year for the earthmoving, civil construction, quarrying, hire and rental, public works and allied industries. Other industries covered by the event are demolition, civil engineering, agriculture and farming, mining, roads, traffic management and forestry.

Using 45,000 square metres of indoor and outdoor space, more than 200 companies showcased the latest technology in heavy and light machinery, equipment and specialised services. One of the big surprises for this year were the Glamazon showgirls and the fantastic Mini-Bike MotoX, the 50cc mini-bike crew performed a precision-riding display, jumping and freestyling over millions of dollars worth of heavy equipment.

### InFocus: Trench & Shoring Systems

Trench Shoring, the process of bracing the walls of a trench in order to prevent collapse, is the latest addition to the product range of Thyssen Krupp Steelcom, exclusively distributed for our sister company TKBauservice/E&S Trench box and Krings shoring.

The Trench Boxes, recently showcased at the ACE EXPO 2009, were among the featured products reporting good sales during and after the show.

For more info on trench shoring, check our website [www.tk-steelcom.com.au](http://www.tk-steelcom.com.au) or

Call Martin on 0407 671 200 to discuss. []

### We bid Farewell to Wayne (NSW/QLD Rep)

We regret to advise that Wayne Kennedy, NSW/QLD Area Sales Manager for ThyssenKrupp Steelcom has decided to move on and further his career elsewhere effective 1 April 2009.

Therefore, it is necessary to review our operations in NSW/QLD Australia and the suitable replacement, Mr. Martin Cross (QLD) and Mr. Joe Commins, GM (NSW) will effectively and efficiently ensure that Wayne's clients, and areas of responsibility are managed with a little disruption as possible. Call 02 9409 1777 for more info.[]
